

## A overwhelming honor for Graff

All of us at Graff are proud and grateful to announce that we have been awarded **International Grower of the year 2017** by AIPH in the category ‘Young Plants’. We would like to use the opportunity to thank everyone in our network, for your positive comments and your participation in helping us achieve this great honor. Last but not least, there should also sound a big applause and thank you to all our partners around the world for helping us come so far – without you, your support and trust in us, this would not have been possible.
