

## Vietnam: Hasfarm hosts first edition of Floral Inspirations

Hasfarm Young Plants has organized its first edition of the Floral Inspirations, creating an occasion, based on trials evaluation and seminars, for breeders and Hasfarm Young Plants customers to get together.

With the support and mutual interest of each of the players in the chain, the Hasfarm Young Plants' activities have kept expanding over the last 20 years with exports to Europe, North America and increasingly within Asia. A milestone has been reached in 2017 with an annual production of 250M cuttings.

Over the years, Hasfarm Young Plants has become an important pillar of Dalat Hasfarm's business. With its continuous developments, the company has contributed to opening doors in numerous Asian markets, including in Vietnam where both demand and expectations of consumers are rising.
