

# Queen<sup>®</sup> Kiwi Hebe<sup>™</sup>

## Queen<sup>®</sup> Kiwi Hebe<sup>™</sup>

The Kiwi-series of Hebe varieties is a new summer – autumn addition to our outdoor product range. Our Kiwi Hebe varieties are compact shrubs and provide flower spikes in a broad range of lively colours.

### Perfect for outdoor and bee friendly garden

Kiwi Hebe varieties are classy outdoor, evergreen shrubs. They can be grown in pots or planted directly in the ground. Kiwi Hebe varieties will flower continuously from summer to early winter. Flowers will attract pollinating butterflies and bees, and Kiwi Hebe is, therefore, suitable for a bee friendly garden. Our Kiwi Hebe varieties will tolerate temperatures down to minus 5 degrees C.
