

GREENEX SANSEVIERIA FRANCISII SPIKY

SANSEVIERIA FRANCISII SPIKY

The name of this Sansevieria says it all: The natural growth of the variety means it develops many spikes.

It is a plant that can be easily shipped as URC and therefore has potential for many markets.

The plant is a slow grower and has been grown at our farm for several years, before we ship it to you.

For more information feel free to contact one of our representatives and visit [Greenex.com](https://www.Greenex.com).
