

Queen[®] CutFlowers[™]

New, award winning cut flower innovation

The first cut Kalanchoe and IPM novelty prize winner. Available in six colors, all year.

Minimum 3 weeks flowering

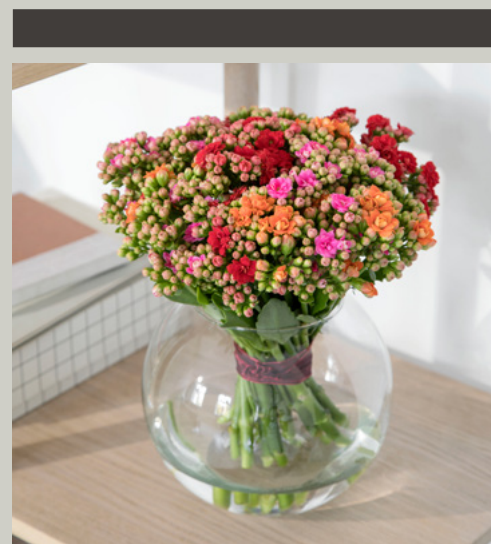

With a minimum of 3 weeks flowering, Queen[®] CutFlowers have set a stunning, new standard for the longevity in the cut flowers category.

Breeding and ethylene resistance

All varieties are patented by Queen[®] and the assortment is continuously developed through new colors and improved varieties to ensure superior quality. All varieties selected to breeding demonstrate ethylene resistance.

Antiseptic flowers

Queen[®] CutFlowers have an antiseptic effect that keeps the water, in a vase, clean. No water exchange needed.
